

OPERATION GUN SAFE 2016

Within the Commonwealth of Pennsylvania gun violence has taken the lives of innocent victims that could have been avoided.

We must no longer accept this epidemic. We must take action now.

We can stop the deaths of innocent children, and give a person with a gun seconds to stop, think before you shoot. They take actions that will change lives forever.

When that gun is not under your control.

Put a lock on it.

When you are angry or in an argument.

Put a lock on it.

When children are in the house.

Put a lock on it.

As Sheriff Williams says "Got a gun , Get a lock"

The Office of the Sheriff for the City and County of Philadelphia, the Pennsylvania Sheriffs' Association and the Deputy Sheriffs' Association of Pennsylvania has come together to announce "Operation Gun Safe". Our goal is to raise funds to provide gun locks for the citizens of Pennsylvania at no charge. With these locks, all firearms can be secured so that innocent lives can be saved.
